About Us

- It was first established in **Australia** in **1993** and was the first company to introduce teeth whitening products to the Australian market through the brand **White Glo**.
- The White Glo range was originally developed exclusively for **actors** and **models** and was rated most effective by a leading **consumer trial**.
- White Glo produced 8 different **toothpastes** formulation, for each there is a special indication to achieve all costumers need.
- Active ingredients combination for daily care of the teeth. **Titanium dioxide** is a fine, white powder that provides **bright** and **white** pigment. While sodium monofluorophosphate the **remineralization** of the tooth surface .The tooth becomes smoother and more resistant, For healthy and white teeth.

WHITE GLO® SMOKERS FORMULA TOOTHPASTE

INGREDIENTS:

Aqua, Sodium Lauryl Sulfate, Flavor, Sodium Saccharin, Calcium carbonate, Glycerin, Silica, Sorbitol, Cellulose gum, Chondrus Crispus, Rosa Canina fruitoil.

Contains Solum Diatomeae (Diatomaceous Earth), Sodium Monofluorophosphate and Titanium Dioxide.

Removes deeper **tobacco** stains and ensures the quality of your teeth whitening The Smokers formula is specially formulated with **Diatomaceous Earth** – a natural ingredient proven to help lift tobacco stains and discolorations, essential for healthy teeth, bones, hair, skin and nails.

A food grade diatomaceous earth (DE) is a gentle abrasive that's also highly absorbent, and it's almost entirely made of silica - an important component of human ligaments musculature. This unique resuememakes DE one of the cheapest and most versatile health products on the market.

Because it is made up of tiny, hard phytoplankton, DE works well as a gentle abrasive. It attaches to the protective waxy outer coating of bugs/pests and absorbs it or scrapes it away, causing them to dry out and die. Likewise ,it can be used to mechanically remove stains from teeth or slough off dry, dead skin.

Eliminates bad breath caused by smoking.

WHITE GLO® COFFEE & TEA TOOTHPASTE

INGREDIENTS:

Aqua, Sodium Lauryl Sulfate, Flavor, Sodium Saccharin, Calcium carbonate, Glycerin, Silica, Sorbitol, Cellulose gum, Chondrus Crispus, Rosa Canina fruit oil.

Contains Cera Carnauba (copernicia cerifera Wax), Sodium Monofluorophosphate and Titanium Dioxide Micro-Wax Protection Shield® also called Brazilwax and palm wax, is a wax of the leaves of palm (copernicia cerifera Wax)

It's a queen of waxes, that grow only in northeastern Brazilian.

Actively protects your white smile against food and drink stains throughout the day

Daily consumption of coffee and tea may cause discoloration and yellowing your teeth enamel!

Formulated with Micro-Wax Protection Shield® to prevent coffee and tea stains from forming. Visible wax beads in toothpaste, by coating your enamel.

WHITE GLO® 2 IN 1 TOOTHPASTE WITH MOUTHWASH

INGREDIENTS:

Aqua, Sodium Lauryl Sulfate, Flavor, Sodium Saccharin, Calcium carbonate, Glycerin, Silica, Sorbitol, Callulose gum, Chondrus Crispus, Rosa Canina fruitoil and TitaniumDioxide.

Contains Sodium Monofluorophosphate and Alcohol Denat.

Alcohol denat is an abbreviation for denatured alcohol, which is used in cosmetics and personal care products as an anti-foaming agent, astringent, antimicrobial agent, and a solvent.
